education unlimited®

CELEBRATING 20 YEARS
1993–2013

1993–2013
Dear Friends and Families,

Education Unlimited was founded in 1993 with the mission of giving every high school student the best possible chance of gaining acceptance into the college of his or her choice. Twenty years and 20,000 campers later, today Education Unlimited is one of the nation’s leading summer academic enrichment program providers. While our program offerings have grown considerably since the beginning, we still maintain our original commitment to hire only the highest caliber instructors and provide programs that are both academically challenging and socially enriching.

Our programs are designed for motivated and talented students who are ready for an unforgettable summer experience. Prior attendees and their parents often confirm that our academic sessions provide access to top-notch curricula and the very best teachers with whom kids have ever worked. Our programs have received exceptional camper family reviews, with the vast majority of participating families saying they would recommend the program they attended to others. I believe this is the single most important measure of overall program quality, and Education Unlimited’s nearly perfect score in this area can give you confidence that we are the best choice for your family.

For more information about our summer programs, visit our website at www.educationunlimited.com or call our admission coordinators at 510-548-6612. Please feel free to contact us if we can provide further information. This coming year promises to be an exceptional summer, and we hope you’ll join us!

Sincerely,

Matthew Fraser
Education Unlimited
Founder and Executive Director

P.S. We’ve recently launched our new K - 6th grade day camps, Camp Brainy Bunch! Read more about these great programs on page 13 of this brochure.
Guide Summer Programs

for students entering grades K - 12

College Admission Prep Camp® grades 11 - 12 pages 4
Our exclusive series of programs help students succeed in the college admission process. Students take seminars in SAT prep, Personal Statement Writing, and College Counseling.

Prep Camp Excel grades 9 - 10 page 5
Prep Camp Excel prepares students for college by giving them the tools they need to succeed to their full potential in high school, including academic essay writing, PSAT prep, and study skills.

A+ Summer grades 6 - 12 page 6
Our unique A+ Summer Program series seeks to inspire and engage advanced students in the leadership and critical thinking skills that are necessary for academic success.

Summer Focus at UC Berkeley grades 11 - 12 page 7
Earn college credit while you are in high school! Summer Focus students take a UC Berkeley course while living in a structured and supervised dorm environment and choose supplemental courses, including College Level Writing and SAT prep.

East Coast College Tour grades 10 - 12 call for details
Over the course of 7 days this chaperoned trip allows students to visit 10 prestigious colleges in a fun, supervised environment.

Public Speaking Institute grades 4 - 12 page 8
Designed to help students build confidence in their presentation skills, our Public Speaking Institute trains students in public speaking, logic, and rhetoric through an interactive and dynamic curriculum. A special session on mock trial is also offered.

Emerging Writers Institute grades 10 - 12 page 9
This program develops and supports students’ imaginative writing of poetry, plays, fiction, and nonfiction. Students will challenge themselves technically and artistically through guided daily writing workshops, one-on-one instructor evaluations, group editing sessions, and creative presentations.

California Actors Workshop grades 7 - 12 page 10
A studio theater program held at Stanford University, the California Actors Workshop focuses on the development of the skills young actors need to succeed in theater.

Video Production Camp grades 7 - 12 page 11
Video Production Camp offers students the unique opportunity to develop multimedia production skills including scripting for video, lighting, directing, shooting, editing and special effects.

Computer Camp grades 4 - 12 page 11
Computer Camp offers specialized instruction in web design and JAVA programming for middle school and high school students, as well as a survey course for elementary students.

Sally Ride Science Camps for Girls grades 4 - 9 page 12
Offered in partnership with Sally Ride Science®, these programs encourage girls’ interests in science by giving them hands-on science learning and activities in an environment that is designed to be supportive, enriching, and – most importantly – fun!

Camp Brainy Bunch grades K - 6 page 13
Camp Brainy Bunch day camps inspire rising Kindergarteners through 6th graders to realize their potential as inventors, communicators, performers and writers. Campers choose from a variety of theme-based, academic workshops, which span the disciplines of public speaking, writing and science. Ten convenient Bay Area locations.

Education Unlimited® pioneered the concept of comprehensive summer college admission preparation in 1993 with College Admission Prep Camp (CAPC), a ground-breaking residential program that helps college-bound students with SAT prep, college counseling, and essay writing instruction. Over the years we have since expanded our admissions prep offerings to help families find the CAPC that best fits their needs, schedule, and budget.

Education Unlimited® offers three different versions of College Admission Prep Camp of varied intensities, locations and prices, so families can choose a best-fit program. Explore the table below to learn more about which program best suits your family’s needs.

**Location and Length**

College Admission Prep Camp Intensive is a 20-day, 19-night program scheduled at UCLA. CAPC Original is an 11-day, 10-night program held at UC Berkeley and Tufts University. CAPC Day Camp is a 10-day program held in the San Francisco Bay Area. All programs are for rising 11th and 12th graders.

**Prep Camp Excel** prepares students for college by giving them the tools they will need to succeed in high school. This program has been designed to meet the needs of entering 9th and 10th graders; the curriculum focuses on PSAT and test taking preparation, essay writing, and study skills training. Prep Camp Excel seeks to give students a head start on the college admissions process by giving them the motivation and skills they need to achieve high school success. This program is most appreciated by students who are academically motivated, gifted and talented, or both.

*Prep Camp Excel* is a 7-day, 6-night program for entering 9th and 10th graders. Programs are offered at UC Berkeley and UCLA.

While the focus of the camp is to prepare students to succeed in high school, the fact that it is summertime is never forgotten! Excel participants experience life on a college campus — living in the dorms together encourages students to build close friendships that last through high school and beyond. Planned recreational excursions allow students to experience local attractions and unwind after class activities and homework are completed.

**Location and Length**

*Prep Camp Excel* is a 7-day, 6-night program for entering 9th and 10th graders. Programs are offered at UC Berkeley and UCLA.

**An Excel graduate will have:**

- taken 2 full-length PSAT exams.
- worked on writing skills for 12 hours.
- received 7 hours of study skills training.
- learned critical test-taking skills through 18 hours of PSAT preparation.
- spent 7 intense and fun-filled days on a college campus.

“I was really pleased with how dramatically my PSAT scores changed.”

Riley M., Prep Camp Excel participant
A+ Summer Programs are held exclusively at Stanford University and Yale University. Our stimulating curriculum builds students’ proficiency in logic, critical thinking and writing skills. Four sessions give 6th through 12th grade students challenging instruction and unique recreational activities while they experience a taste of college life. The High School and Pre-College programs require a 3.0 GPA.

A+ Summer Pre-College prepares 11th and 12th grade students for college-level academics and helps them build skills to qualify for admission at top colleges. Students attend courses in logic, research, writing, and presentations and develop the vocabulary, problem solving and critical reading skills necessary for success on exams and in college-level courses.

A+ Summer High School challenges 9th and 10th grade students in high-level academic activities that develop skills needed for high school success and achievement. Over the course of 8 days, students will attend classes in advanced argumentative writing, critical reading, and logic/problem solving. Students will also participate in seminars and lectures covering study skills and strategies such as time management, note-taking, and course planning.

A+ Leadership A+ Summer Leadership encourages 9th - 12th grade students to develop their own personal leadership style through self-assessments, group projects and hands-on learning. Over the course of six days, students will build the leadership skills that best suit their individual leadership styles. Through personality and leadership self assessment tests, students will benefit from guided self-evaluation to determine the management style that best fits their leadership goals. Students will also fine tune their written and oral communication skills and get hands-on practice in organizing and implementing a leadership event.

A+ Summer Middle School immerses 6th - 8th grade students in an environment that encourages advanced thinking, creative problem solving, and a lifelong love of learning. For 6 days, students will design and execute their own solutions to contemporary predicaments as they explore their potential as inventors, detectives, and strategists. Interdisciplinary classes will strengthen students’ talents in reading, writing, math, and science, while encouraging them to employ these skills in new and imaginative ways.

“This was my first academic camp. If I go to another one it will have big shoes to fill.”

Manasi G., A+ Summer participant
**Summer Focus at UC Berkeley** is a comprehensive 6-week summer academic enrichment program offered in a rare public-private partnership between Education Unlimited and UC Berkeley Summer Sessions. The program is designed to provide a small-group learning environment for talented and motivated high school students who want to experience college life. Students from around the world attend Summer Focus; many attend individually and some attend with a friend or as a group.

This exciting program allows entering junior and senior high school students the opportunity to earn college credit, receive an invaluable introduction to college, and have a great time on a variety of recreational excursions—all the while living in a structured, supervised environment.

Summer Focus students take one UC Berkeley course for 3 - 4 units of transferable college credit, and choose two Summer Focus enrichment courses taught by Education Unlimited’s expert staff. Our Summer Focus enrichment courses are afternoon and weekend courses designed to offer additional educational opportunities. Past offerings have included SAT preparation, college-level writing, public speaking, creative writing and a literary tour of the Bay Area.

Summer Focus offers a great social environment and exciting recreational activities. Students have the opportunity to explore the vibrant and culturally rich city of Berkeley, including Telegraph Avenue and other areas surrounding the campus.

The program is located in the heart of Berkeley, allowing us to maintain strong ties to the city, campus, and the greater Bay Area.

**Summer Focus tuition includes:**
- UC Berkeley class fees
- Room & Board on the UC Berkeley campus
- All recreational excursions
- One-on-one tutoring and academic support
- Summer Focus enrichment courses

*“Having taken an actual course at Berkeley gave me a better idea of the university and reinforced my desire to go there.”*

Mitchell H., Focus participant
Public Speaking Institute trains students in communication skills not generally taught in schools. The program instills confidence, articulation, organization, clear and effective writing abilities, exemplary in-class participation skills, and the ability to deliver well-crafted presentations in and out of the classroom. Education Unlimited offers highly personalized instruction, with separate sessions for elementary, middle, and high school aged campers that break students into skill-level groups.

Our students learn through doing—every student will speak and be constructively critiqued every day of the program, usually several times per day. Step by step, our students become better, more confident speakers by being introduced to skills one topic at a time and practicing those skills using a variety of entertaining exercises while their proficiency improves.

The Advanced Public Speaking Institute is designed for high school students who are already fairly comfortable speaking in public, including most students who have attended prior sessions of the Public Speaking Institute. Campers construct their own personal programs by choosing from a variety of advanced elective classes.

The American Legal Experience is a special one-week course, is offered for students interested in law and mock trial. Designed by legal professionals and our public speaking curriculum writers, this camp offers students unique insights into the American legal system while still focusing on the goal of public speaking and presentation as the primary objective of the program.

Elementary Education Week is a special session of the Public Speaking Institute held at Stanford University to meet the needs of younger students entering the 4th, 5th, and 6th grades.

“My public speaking instructor is the best instructor I ever bad in my life. I can’t find any faults.”

Public Speaking participant
The **Emerging Writers Institute** is a two-week program for 10th-12th graders designed to develop and support students’ imaginative writing across literary genres. Students will be encouraged to challenge themselves technically and artistically through guided daily writing workshops, one-on-one instructor evaluations, group editing sessions, and creative presentations of their work. By the program’s conclusion, students will produce and refine quality pieces suitable for publication in our camp literary magazine, and which may be submitted to professional teen publications.

“My daughter’s experience at Emerging Writers was way beyond her expectations. She came back with so much enthusiasm for the written word – her self-confidence and understanding of her strengths and weaknesses only serve to make her a better writer.”

Parent of EWI participant

---

**Location and Length**

The Emerging Writers Institute is a 14-day, 13-night program for entering 11th and 12th graders. The program is scheduled to be held at UC Berkeley, Stanford University, and Yale University.

**What makes this program distinctive?**

- Students will have the opportunity to explore the literary culture of the campus and surrounding area. They will participate in coffee house poetry nights, attend author signings and readings, and get involved in the area’s robust and inimitable literary life (excursions are tentative and vary by camp location).
- Curricular emphasis is on expressive writing as a process, rather than in rules or formulas. Students will discover and refine their own voices!
- Critical reading exercises will enhance student writers’ understanding and growth.
- Seminars will help students ready their work for submission to youth publications, such as The Claremont Review, The Writer’s Slate, Stone Soup and Teen Ink.

*Excursions are subject to change.*
**California Actors Workshop** focuses on the development of the skills young actors need to succeed in theater, from an understanding of what goes on behind the scenes to the performance of a complex character. The core curriculum consists of Basic Acting Technique, Voice, Movement and Improvisation. Campers also choose electives of interest.

**Past electives have included:**
- Introductory Playwriting
- Shakespearean Text & Language
- Make-Up Techniques
- Mask Work & Performance
- Puppetry
- Voiceovers & Radio Performance
- Beginning Fencing
- Clowning
- Audition Preparation
- Spoken Word
- Performing the Greeks
- Make-Up Techniques
- Audition Preparation
- Spoken Word
- Performing the Greeks
- Yoga

The Workshop culminates in showcase performance featuring a monologue and/or ensemble scenework. Parents are welcome to attend these special performances which take place during the final evening of camp. All applicants must submit a personal statement for admission to the program.

“[Our instructor] was an amazing teacher who taught all of us so much. He was patient, kind and so helpful to all of us.”

Julia B., Actors Workshop participant

**Location and Length**

The California Actors Workshop is a 14-day, 13-night program for students entering the 9th - 12th grades, scheduled to be held at Stanford University.
**Computer Camp** offers hands-on instruction not normally available in a school setting and trains students in both creative and practical computer skills. Our interactive and personalized curriculum encourages students to use their imaginations while exploring emerging technologies and software.

Every week of instruction for middle school and high school students provides a curriculum focused on one major area of computer proficiency. This allows students to choose a week of programming that they are particularly interested in, and allows them to experience a more in-depth curriculum than a traditional survey course. This year, we offer two different foci: Java programming and web design (see website for schedule of topics by week).

**Video Production Camp** is a fun and exciting program that allows students to work directly with professionals in the field of industrial film and video production. Campers produce, direct, light, shoot and edit like the experts as they make their own short movies and videos. A professional staff of instructors with many years in film, television and/or video production guides students through a fun and exciting educational experience.

**Advanced Video Production Camp** offers students entering grades 9–12 the unique opportunity to develop multimedia production skills including scripting for video, lighting, directing, shooting, editing and special effects. This advanced camp is perfect for high-schoolers who have already dabbled in digital filmmaking or even those who have attained substantial mastery already.

“This computer camp was so much better than the computer class at school.”

Computer Camp participant
Sally Ride Science Camps encourage girls’ interests in science by giving them hands-on science learning and activities in an environment that is designed to be supportive, enriching, and—most importantly—fun! Education Unlimited® has partnered with Sally Ride Science™, founded by America’s first woman in space, to provide innovative science programs for girls entering 4th - 9th grade. These unique, overnight camps provide girls an opportunity to explore science, technology, and engineering while having fun on a college campus. Programs are of graduated depth and difficulty, with the longer residential programs, and those for older students, being the most intensive of our offerings.

Science Majors Each student will choose a Major, which will be the main focus of her morning lab sessions. We typically offer four exciting majors: Engineering, Astronomy, Marine Science and Robotics. Prior years’ labs and projects included:

Astronomy (6th & 7th Grade)
- Home-made astrolabe
- Gravitational force labs
- Water rockets project

Marine Science (4th–9th Grade)
- Habitat and classification labs
- Bioluminescence exploration
- Creative creature project

Robotics (8th & 9th Grade)
- Electrical circuits
- Making motors
- Robotics challenge project

Engineering (4th & 5th Grade)
- Bridge building
- Egg drop challenge
- Hovercrafts lab

A Sally Ride Science Camp graduate will have:
- completed the exclusive Sally Ride Science curriculum.
- participated in lots of hands-on science learning activities.
- gained confidence in a supportive environment.
- learned from experienced and inspiring instructors.
- made lots of new friends.
- experienced a taste of college life.

“The camp counselors and instructors had very good attitudes, were really helpful and had so much energy. I loved everything about it!”

Panisa S. Sally Ride Science participant

Location and Length
Sally Ride Science Camps are for students entering grades 4 - 9. Both day camp only and overnight programs are offered. Programs are tentatively scheduled to be held at Stanford, UC Berkeley, Caltech, UC San Diego and the Massachusetts Institute of Technology.
Camp Brainy Bunch is a new K-6 summer day camp with 10 locations throughout the San Francisco Bay Area. Inspired by great thinkers throughout the ages, like Leonardo da Vinci and William Shakespeare, Camp Brainy Bunch encourages rising Kindergarteners through 6th graders to realize their potential as inventors, communicators, performers, leaders, and writers. Campers choose from a variety of theme-based, experiential workshops, which span the disciplines of public speaking, creative writing, and science. Convenient scheduling options make it easy for parents, with 7 workshop options, 10 locations, and extended care hours available from 8am - 5:30pm. Lunch and snacks are included for every camper at no additional cost.

K - 2nd Grade Workshops

- **Presenters and Performers** Join Shakespeare’s team of performers and take the stage for a week of acting, song, and creative learning.
- **Storytellers** Step into a world of storytelling, theatre, and creativity. Join Hans Christian Andersen’s team of storytellers to create your own original tales.
- **First Flyers** Da Vinci is training up his next team of flight engineers. In his First Flyers class you build our own flying machines.

Learn more about Camp Brainy Bunch at campbrainybunch.com or call 510.548.4800.

3rd - 6th Grade Workshops

- **Fairy Tale Mock Trial** Grimm, Grimm, and Anderson are recruiting new legal aids for their growing caseload. Join the best legal minds of the Fairy Tale Realm for a week of exciting courtroom drama.
- **Impromptu and Delivery** It’s time for the “Tournament of Tongues”? Join Team Socrates for a week of public speaking games and mayhem.
- **Creating Characters** Join Jane Austen’s experienced writing team for a week of creating characters and exciting stories.
- **Engineering Flight** Da Vinci needs help designing new machines of flight. Join his design team as we take on new concepts for helicopters, blimps, and gliders.
Once an application has been received for any of our programs, Two separate damage and key deposits of $125 each are required. See our website for international student enrolment policies. Need-based aid is available. See our Students are expected to attend all scheduled events, classes, and seminars. Students must conduct themselves in a mature and responsible manner, following all program and/or school/university guidelines and fully respecting the rights of others. After application and upon acceptance to the program, students will be sent a follow-up packet with final enrolment materials. All forms must be completed, signed, and returned to Education Unlimited before a student may participate in any Education Unlimited program.

No incidental damages. All parties agree that Education Unlimited’s liability is limited by the posted refund policies and regulations, under no circumstances shall exceed the camp tuition paid by the camper family, nor shall Education Unlimited be liable for any incidental damages.

International Students > See our website for international student enrolment policies. www.educationunlimited.com/international enrolment.

Tuition Protection Plan (TPP) > Sometimes families must cancel their registration due to unforeseen circumstances and we are unable to issue refunds in such cases. We recommend that families purchase our Tuition Protection Plan to provide for maximum possible refunds. This program provides a refund (including normally non-refundable payments, but not the premium paid for the plan itself) if camp enrolment is cancelled by written notification prior to the start of the program. No refund is provided if the cancellation request is received after the camp begins. The total fee for the coverage plan is 10% of the total cost of the program before any discounts.

The TPP can only be purchased on initial application, cannot be added later, and is not offered for the East Coast College Tour. This written cancellation policy is always binding and no verbal communication from any EU staff can override the written policy. Only a financial officer of the company can approve a policy waiver on any request for refund or any other financial matters, and all requests for a waiver must be submitted in writing for the CEO or CFO to review for a written response.

See the TPP section on our website for additional information about cancellations and partial credits. www.educationunlimited.com/cancellations.

Switching Programs > Because Education Unlimited incurs many nonrecoverable fees once a program is enrolled in a program, switching from one program to another is considered to be two different transactions, (1) cancellation of the first camp and (2) enrolment in the second camp. Families that have purchased the TPP for the cancelled program will be refunded the full amount due per our cancellation insurance refund schedule. For families that have not purchased this cancellation coverage, the camp fees paid are nonrefundable and cannot be transferred to the new camp.

Note: For the purposes of Massachusetts law, Education Unlimited only operates summer programs, not camps.

Visit our website for a complete and up to date version of our enrolment policies.
Join Us!

Regular Enrollment A check for full tuition or a deposit, (credited toward the total program cost), must accompany your application. Applicants are considered on a first come, first served basis except for Summer Focus, A+ Summer and CAPC Intensive, which are competitive. Applicants not accepted to the program will have their tuition payment returned, otherwise no refund of any kind is offered without the Cancellation Protection Plan.

Tuition Assistance Students with financial need are encouraged to call or write for tuition assistance information, or send an email to campinfo@educationunlimited.com. See page 14 for details.

How did you first hear about the program?

Reminder: You must remit the $495, $695 or $995 deposit with your completed application. Make checks payable to Education Unlimited. Without the Tuition Protection Plan (TPP) this deposit is non-refundable unless the student is not accepted into the program. We recommend that you purchase the TPP, which provides a full or partial refund, as explained in our enrollment policies. The fee for the Protection Plan is 10% of the total tuition before any discounts and must be purchased with this application. No refund of any kind is offered without the TPP. If you answer yes for the TPP, full payment for the Protection Plan must be sent in with this application. With TPP, cancel 31 days or more before camp and receive 100% refund of tuition, cancel 15 - 30 days before camp for a 70% refund, cancel 3 - 14 days before camp for 40% refund. Cancel 2 days before camp or fewer, no refund is provided.
